Mr. Bosbyschell,

Superintendent of the Mint,

Philadelphia, Pa.

Dear Sir:

We very frequently have large quantities of copper scale to sell and should be pleased to know if you can use this article for making alloys or any other purpose. We enclose a sample, of which we have about 20 tons at present.

Please let us hear from you at your very earliest convenience, and so oblige,

Yours truly,

I have submitted sample of copper scale forwarded by you Jan. 14th inst., to the Metals Refiner, who reports that, as it is partially oxidized, it cannot be used for alloy purposes. The alloy metal used by this Mint is furnished on contract.
